

EQUIPMENTS

AIR FOG® Nebulizer

DROP DIMENSIONS
10 µm - 50 µm

FEATURES

Air Fog is a compact electric nebulizer for the cold application of liquid insecticides (both concentrated and ready to use) in domestic, civil and industrial environments.

Its structure is in thermoplastic material, shockproof and resistant to the corrosive action of chemical agents. The instrument has a release power of 57 m and it can saturate ample spaces within few minutes.

APPLICATION FIELD

It can be used for pest control treatments as well as disinfection and deodorization treatments. It is an ideal device for the insect controlling in internal ambiances and pest control interventions in bars, restaurants, anteenas, live stocks and alimentary sector in general, as well as public places such as schools, offices and shops.

TECHNICAL FEATURES

- Electric engine 230V – 50Hz with 800 W power
- Distribution capacity: 30 L/h
- 3 nozzles for the product's distribution
- Drop dimension: 10 µm - 50 µm

Technical Data

Power	800 W
Engine AC	50 Hz - 230 V 18000 rpm
Assorbimento	3,6 A
Tank	5 Lt
Dimensions	29 x 43 x 26 cm
Weight	3,5 Kg
Drop Diameter	10 µm a 50 µm
Erogation	30 Lt/h max (w. liquid of density=1)
Packaging	1 pc

Code 080
