

PESTWORKER pw35 ULV

Product Specification:

- Motor Output: 1,250 W
- Capacity of Chemical: 3 L
- Injection Distance: 5 ~ 10 M
- Particle Size: 5:50-Microns
- Power Source: 110V, 220V, 240V
- Size: 160 × 550 × 250 mm (Net)
- Weight: 3.0 Kg
- Wire Length: 5 M

Main Characteristics and Features:

- Strong injection and the ultra-low volume (ULV) spraying function the penetration and diffusion of the solution to fine areas
- It can be used for water based and oil based solutions
- It allows for applying or spraying various chemicals, such as insecticide, germicide, freshener, antibiotic, resistant and nutritional supplements, micro-organisms
- Very easy to use and efficient due to its powerful spray.

Additional Features:

- Speed control function for adjusting spraying range and droplet size control.
- Control of chemical amount
- Air vent valve installed on chemical tank
- Chemical tank easily replaceable and easily cleaned
- Strong air flow enables easy maintenance for cleaning after use.

Applications:

The ULV cold fogger can be used to apply insecticides, biocides and disinfectants. It has huge ranges of applications, insecticide, germicide, freshener, antibiotic, resistant and nutritional supplements, in places such as farms, public areas, hospitals, schools, commercial facility, homes, hotels, public transport etc. This efficient ULV has the capacity to cover an area of 100 square meters in less than 2 minutes.
